INTERESTS & EXTRA INFORMATION

From time to time I love to create different collages in Photoshop. It's nothing commercial, just amateur using. My friends like it:)

I love to spend part of free time by watching a good movie with good scenario. The last movie I liked was "The Sisters Brothers".

Of course, I love to learn something interesting and new. In addition to studying materials about testing, I'm waiting the book "Morphology of consciousness". I ordered her in early January.

I have a lot of friends in Playstation network. Sometimes, we get together and spend time having fun talking and playing.

Also, I visit a pool every week.
